

SKIPPING BARRIERS TO ACCELERATE SUCCESS

In this activity, you will be able to apply the Skip It Principle to identify alternative solutions and accelerate your success.

Rapid Application Learning Activity Worksheet	
<p>While watching the video <i>Skipping Barriers to Accelerate Success</i>, you learned that instead of engaging with your biggest roadblocks by confronting them, often you'll find that you can simply leap over them. You can accelerate success by applying the Skip It Principle to uncover invisible problems and then take decisive actions to overcome them. When applying this principle, you will often find that your perceived required actions can be skipped altogether to get a better result.</p>	
<p>Skip-It Principle</p>	<p>The key to problem skipping is to understand that whatever challenge or problem you have, no matter how big it is, that's not it. The reason the problem or challenge is so big and seemingly unsolvable is that it's not defined correctly. By skipping the perceived problem, you can find the real problem and, better yet, the solution.</p>
<p>Activity #1</p> 	<p>Identify one or more seemingly unsolvable problems in your organization today. What are the consequences of not taking action to address them?</p>
<p>Activity #2</p> 	<p>How can you apply the Skip It Principle to the unsolvable problems you identified above? By applying the Skip It Principle, can you leap over part of the problem to accelerate success?</p>

SKIPPING BARRIERS TO ACCELERATE SUCCESS

In this activity, you will be able to apply the Skip It Principle to identify alternative solutions and accelerate your success.

Rapid Application Learning Activity Worksheet

Activity #3

As you develop your solutions, are there additional strategies, including new technologies, to help you skip barriers to move forward faster?
